

Love Salmon and the Great Outdoors?

Become a Volunteer Docent for the Kennedy Creek Salmon Trail!

Originally opened in 2001, KCST is a unique opportunity to view chum salmon as they return to their natal watershed to spawn.

This fall over 5,000 students and community members will visit Kennedy Creek to witness the return of the salmon and learn about salmon spawning behavior and anatomy.

Docents are the heart and soul of the Trail, guiding school groups and answering visitors' questions.

Volunteers should

- Be passionate about the natural world
- Be enthusiastic about creating future stewards
- Be willing to volunteer for a minimum of three shifts in November
- Be able to attend a training

Training at the Trail

Saturday, October 17, 2015
9:30AM - 3:00PM

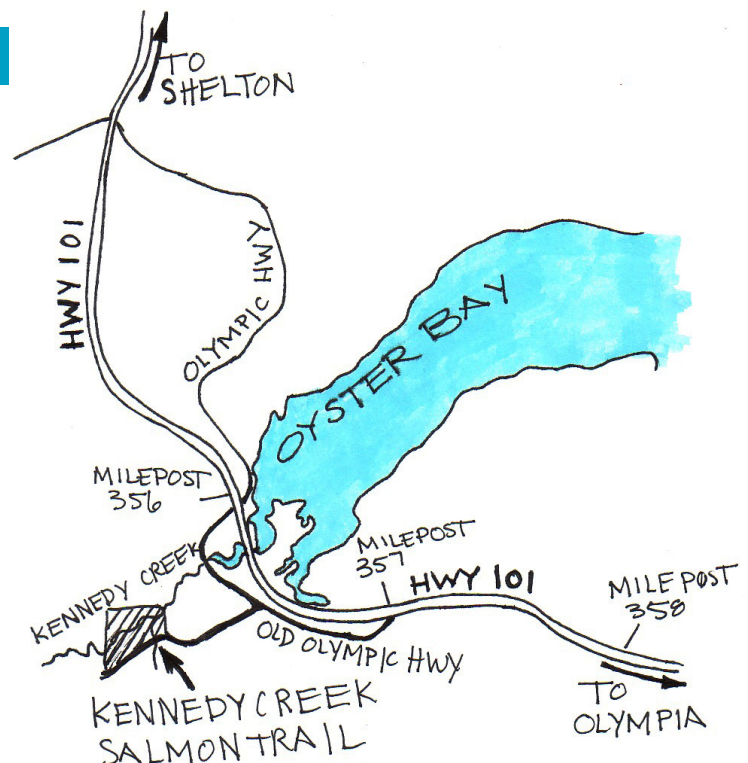

Please RVSP with Jerilyn Walley
